

WANT TO START GROWING?

We're here to help!

With a parent or guardian, fill out the form below to get a FREE marigold planting kit (seeds, pot, soil, directions). You can grow your marigold in a window sill, plant it outside, or add it to your vegetable garden! The flowers are edible and the plants help keep pesky animals away from your vegetables.

Name: _____

Address: _____

Why do you want to grow a plant?

Do you have a garden at your school or childcare center?

If not, do you want one?

Don't forget to send us pictures of your plant as it grows!
